

Celebrating 20 years in business! Creating natural products for inspired living.

Miracle Collar, Wonder Collar, named by two national pet magazines, *Board and Groom* and **Natural Pet**, is one of a kind, the only collar in the world that not only has no scent, can be washed and ticks.

Dr. Blake <http://www.thepetwhisperer.com/>

my clients have great luck with the non toxin Holistic Pet collars. "I wouldn't dream of using anything like this on my pets and there is a wonderful healthy alternative which can be found at: Positively Holistic. I highly recommend these holistic collars and get lots of positive feedback from those who are using them. The collars are infused with a natural blend of herbal ingredients which not only clients have reported that their pets have less skin irritations, glossier coats, improved stamina and increased energy levels. The collars have no odors."

By Pet Patrol.

"Your Flea & Tick collars work amazingly well. My dogs would normally pick up 25 to 40 ticks on an average day. Using the Holistic Pet, Flea & Tick collar has brought the tick count down to one or dog collars and also impressed by their attractiveness."

Diane Smith, Veterinarian, Phoenix, AR

"I have three Staffordshire terriers. Everyday I take them for a walk in the woods. After these walks, my dogs would come back with 5 to 10 ticks. Common poisonous repellents didn't work. Then I tried the Holistic Pet Flea & Tick collar. I can't believe the solution could be so simple!"

Dr. Ales Vernick, Veterinarian

"You will be pleased to hear that our 14 year old Pomeranian, Holly, her bath last week. Her scratching and itching is gone too. She used to scratch and cry and roll on her back and bite her paws and legs. Now she sleeps like a puppy. Thank you."

Ruth Anderson, Dothan, AL

"Our 13 year old mutt, Rusty, was a very sick dog before Dr. Robert Jordan gave him the Flea, Tick & Skin Itch Collar. He is also wearing an additions stress patch. Rusty is 100% better."

Lynda Esterille, Hyannis, MA

Ingredients: Calendula, Silica, Cayenne, Fleabane, Cinnamon, Red Cedar, White Pine, Aloe, Vitamin E, and Graphite's.

Unique, Non-toxic, All Natural, Herbal Flea, Tick & Parasite Collar Outlasts the Competition 4 to 1!

THE PROBLEM:

Conventional flea and tick products contain poisonous substances that are hazardous to the health of your pet, family members and our world. Pesticides based spot on flea and tick treatments have caused so many adverse reactions that they have been investigated by Environmental Protection Agency. Please say "NO" to the spot-on, shampoos, and powders with toxic chemicals that are extremely harmful.

THE SOLUTION:

Our holistic pet collars provide non-toxic protection, safe, effective, and pesticide free guard to help fight off flea and tick infestations. They are made from a natural blend of herbal ingredients which work collectively to create a protective barrier to fleas and ticks as well as helping to prevent itching. Owners claim they give their pets glossy coats, help strengthen their immune systems, improve stamina, increase energy levels and accelerate the natural healing process. In addition, they report less skin irritations, itching and scratching.

HOW IT WORKS:

The ready-to-use Holistic Flea and Tick Pet Collar is impregnated inside and out with all natural ingredients which are beneficial to the animal and distasteful to the pests. This bio-energetic product material adapts to your companion's unique bioenergy frequency and produces a vibrational field around the animal that repels ticks, fleas and parasites. At the same time the Holistic Flea and Tick Collar helps build the whole immune system allowing the body to build its own trace scents to repel fleas, ticks and parasites naturally. The collar restores vitamins and trace minerals to animal's bio-energetic field to help repel the pests.

BUCKLE & NON-BUCKLE:

Collars are equally effective. The only difference is the Velcro is a little narrower. Better fit for cats and smaller dogs. Both hold full strength for three months and can be wet daily without any loss of repellency.

NON-BUCKLE
COLLAR

BUCKLE COLLAR

FITTING THE FLEA, TICK & PARASITE COLLARS:

To re-size either the Velcro or buckle collar, overlap the Velcro collar at least two inches. The buckle collar, cover the full tab for a more permanent hold. If you want the collar to break-away with the Velcro collar for cat or dog, simply make the overlap shorter. On the buckle collar overlap half the sticky tabs. Test it before you put it on your pet. Simply tug on the collar with the overlap. You want it to break away the way you want it to.
